Dear Parents

AssalaamualaykumWW

**Re: Al-Risalah Nursery Provision from June 2020 - July 2020**

I pray you and your family are well and safe during these challenging times.

Please note that we have highlighted some key points from the risk assessment and FAQs in this document to ensure parents are aware of some of the key points in regards to the opening of nursery from 1st June 2020.

We would appreciate it if you could please confirm that you have read and understood the nursery risk assessment, the FAQs and the points listed below;

- I agree to abide by the conditions set out by the nursery in the documents shared with parents to ensure the safety and well-being of other users,
- I have made an informed decision to send my child to nursery,
- I understand that the nursery has taken all the necessary health and safety precautions according to the government guidelines and I am comfortable with sending my child,
- I understand that despite the nursery's best intentions and efforts, there is no guarantee of preventing transmissible infections. I will therefore not hold the nursery liable for any illness contracted,
- I understand that if there is a case of Covid-19 in the nursery, the setting will close with immediate effect for 14 days with very little notice given to ensure containment of the virus.

Please fill details below and submit to the nursery upon arrival on the first day of your child's return.
